## Pakistan Autonnoile Growth for automobile decelerating <br> Event

- Automobile sales for the month of Sept'21 was upbeat due to (1) improving economic activity (2) tax reductions in budget FY22, and (3) high auto financing. However, growth for FSL universe was restricted because of new entrants capturing market share and higher number of CBUs imported. PCs\&LCVs registered 22,235 units of sales, an uptick of $59 \%$ YoY ( $\uparrow 5 \% \mathrm{MoM}$ ) for month of Sept'21. Main contributor of this growth was PSMC which registered an increase of $72 \%$ YoY ( $\downarrow 7 \%$ MoM) followed by INDU/HCAR as their sales by 44/34\% YoY ( $\uparrow 12 / 13 \%$ MoM).

## Impact

- Shift in segment mix: 800/1000/1300cc was able to grow by 46/143/42\% YoY in Sept'21. The main driver for this growth was stimulus provided in budget FY22 for vehicles up to 1000 cc . Market share for 1300 cc declined to $40 \%$ ( $\downarrow 13 \mathrm{ppt}$ YoY) which was attained by $1000 \mathrm{cc} / 800 \mathrm{cc}$ increasing by $9 p p t / 3 p p t$ YoY to $27 / 27 \%$. Meanwhile market share for jeeps increased by 1ppt to $6 \%$. On sequential basis 1300cc/1000cc increased their sales by $21 / 5 \%$ MoM, meanwhile 800cc/Jeeps showed declined of 10/5\% MoM. Market share for 1300cc declined to $34 \%$ ( $\downarrow 24$ ppt YoY). Meanwhile SUV segment increased its market share to $6 \%$, increasing by 2 ppt.
- However, we expect the sales tax incentives provided in Budget' 22 to rationalize given standardized sales tax regime as per IMF requirement, which would dissipate the catalytic growth for up to 1000cc and 1300cc to regain its market share.
- PSMC driving on economic growth: PSMC volumetric sales clocked in at 11,188 units, which depicted an increase/decrease of $72 / 7 \% \mathrm{YoY} / \mathrm{MoM}$ in Sept'21. This growth is accredited to strengthening of economic cycle and sales tax reduction in Budget FY22. This growth was attributed to Alto/Cultus/WagonR/Bolan/Ravi which increased by 46/289/45/43/65\% YoY at 4,540/3,056/1,678/894/933 units sales for Sept'21. However, on sequential basis, Sales for Alto/Bolan/Ravi declined by 10/29/26\% MoM. Going forward, we expect the catalytic effect from budget FY22 to dilute and supply chain issues to tamper the growth.
- INDU remains upbeat: INDU was able to depict an increase of $44 \% \mathrm{YoY}$ (个12\% MoM) by selling 6,292 units in Sept'21. This growth was attributed to Corolla/Yaris which sold $2,334 / 2,515$ units increasing by $91 / 4 \%$ YoY ( $\uparrow 20 / 24 \% \mathrm{MoM}$ ), additionally sales growth was supported by Fortuner/Hilux increasing by $397 / 38 \%$ YoY units ( $\uparrow 38 / 163 \%$ YoY). Yaris remained the most selling sedan however the novelty factor seems to be dissipating considering new entrants which has started to acquire the market share. INDU is expected to remain the market leader because of (1) brand image, (2) dealership network, and (3) shorter delivery time.
- HCAR consolidating on consumer perception: HCAR was able to sell 3,635 units in Sept'21 ( $\uparrow 34 / 13 \%$ YoY/MoM). HCAR sales for Civic/City increased by $47 \%$ YoY ( $\uparrow 24 \%$ MoM), however this was restricted by BR-V sales decreasing by 36/47\% YoY/MoM to 268 units. The increase in sales were accredited to high auto financing and corporate clientele. Going forward, HCAR sales would remain upbeat given consumer perception for the brand, however it would face competition from all fronts.

## Outlook

- We have an outperform stance on the sector as the increasing demand from (1) growing economic outlook, and (2) increasing demand would keep the volume upbeat.

Table 01: Automobile sales for the month of Sept'21

|  | Sep-21 | Sep-20 | YoY | Aug-21 | MoM | 1QFY22 | 1QFY21 | YoY |
