## Oil Marketing Companies Petroleum sales maintain robust trend

## Event

- Domestic petroleum products sales increased by 17\% YoY in October'21 (up 1\% MoM). This was the $5^{\text {th }}$ consecutive month that sales were above 1.9 mn tons. To highlight, petroleum sales displayed robust YoY growth amid accelerating economic activity with growth recorded across all major products (MS/HSD/FO up by 12/25/12\% YoY) in October'21. Playerwise analysis reveals that PSO/SHEL sales recorded growth of $35 / 22 \%$ YoY during the month. Whereas APL/HASCOL witnessed decline of $3 / 73 \%$ YoY during October'21. We maintain outperform stance on the sector with PSO and APL as our preferred player.

## Impact

- Volumes increased across all major products: Domestic petroleum sales (ex-non Energy) rose by $17 \%$ YoY (up $1 \%$ MoM) in October'21. Product-wise analysis reveals that during the month of October'21, volumetric growth was seen in all major products. MS depicted an increase of $12 \%$ YoY ( $\downarrow 5 \% \mathrm{MoM}$ ) to 766 KT given (1) higher vehicle sales, up by $84 \%$ YoY in 1QFY22 and (2) accelerating economic activity. HSD surged to 837 KT , up by $25 \%$ YoY ( $\uparrow 18 \% \mathrm{MoM}$ ) on the back of (1) accelerating economic activity as evidenced by $7.3 \%$ YoY surge in large scale manufacturing (LSM) during 2MFY22 and (2) increase in international trade activity (3M-moving average of goods exports/imports $\uparrow 4 / 8 \% 3 \mathrm{M}-\mathrm{o}-3 \mathrm{M}$ ). In black oil segment, FO sales rose by $12 \% \mathrm{YoY}(\downarrow$ $19 \% \mathrm{MoM}$ ) to clock in at 325 KT due to increasing mix of FO in power generation given constrained supply of gas and RLNG.
- PSO volumes continued glistening streak: In October'21, sales volume of PSO clocked in at $1,036 \mathrm{KT}$ depicting an increase of $35 \% \mathrm{YoY}$ ( $\uparrow 5 \% \mathrm{MoM}$ ). The increase in sales was due to increase in all major products. MS/HSD/FO sales were up by $32 / 46 / 23 \%$ YoY due to (1) accelerating economic activity and (2) higher demand in power generation. This translated into PSO's market share increasing by 7/8/5ppts YoY in MS/HSD/FO to 46/53/60\%.
- APL volumes showed mixed trend: APL recorded an overall decline of $3 / 20 \%$ YoY/MoM during October'21 as its petroleum sales clocked in at 164 KT . Product wise analysis reveals that MS/HSD inclined by 16/27\% YoY. Whereas, FO volumes declined by $42 \%$ YoY. Moreover, APL's market share in MS/HSD remained flat YoY to stand at $8 / 8 \%$. On the other hand, market share of FO decined by 11 ppts YoY to $11 \%$.
- SHEL volumes surged: During October'21, SHEL's volumes clocked in at 160 KT and were up by $22 / 10 \%$ YoY/MoM. Product wise breakdown shows MS/HSD were up by $11 / 38 \%$ YoY. The company's market share in MS/HSD remained flat/inclined by $1 \%$ YoY to stand at 11/9\%.
- HASCOL volumes on downward path: HASCOL's volumes decreased by $73 \%$ YoY ( $\downarrow$ $20 \% \mathrm{MoM}$ ) to clock in at 23 KT with decline recorded in MS/HSD of $66 / 83 \%$ YoY. The company sold 0.7 KT of FO during the month (market share $0.2 \%$ ). The company's market share declined by $5 / 5$ ppts YoY in MS/HSD to $2 / 1 \%$.

## Outlook

- We have an outperform stance on the sector due to (1) accelerating economic growth, (2) boom in construction sector and (3) resolution of circular debt given renegotiation of IPP agreements which would improve cashflow situation of PSO. Our top picks in the sector are PSO and APL.
