## Oil Marketing Companies Sales in the doldrums

## Event

- POL sales witnessed a continuation of the 10 month downtrend with domestic sales down by $47 \%$ on YoY basis (up by $6 \% \mathrm{MoM}$ ) to 1.2 mn tons in Apr'23 due to (1) slowdown in domestic demand and economic activity amid high interest rates and high inflation, and (2) elevated prices of MS and HSD. Decline of $25 / 50 / 84 \%$ YoY was recorded in MS/HSD/FO sales during Apr'23. Company wise analysis reveals that PSO/APL/SHEL volumes were down by 53/31/44\% YoY during Apr'23.

## Impact

- Volumetric reduction continues: Domestic petroleum sales (ex-non Energy) declined by $47 \%$ YoY (up by $6 \% \mathrm{MoM}$ ) in Apr'23. Product-wise analysis reveals that during Apr'23, volumetric slowdown was seen in MS/HSD of $25 / 50 \%$ YoY (up by $4 / 16 \%$ MoM) due to (1) slowdown in domestic demand and economic activity amid high interest rates and high inflation, and (2) sustained high MS/HSD retail prices. Average prices of MS and HSD during Apr'23 were Rs277/liter and Rs293/liter respectively as Gov't passed on the impact of Rupee devaluation.
- In black oil segment, FO sales declined to 72 KT , down by $84 \%$ YoY (down $16 \% \mathrm{MoM}$ ) depicting lower offtake by power producers amid higher proportion of system gas and nuclear power generation given cost of generating electricity on FO at $\sim \mathrm{Rs} 21 /$ unit is higher compared to average fuel price of Rs9.89/unit.
- PSO sales tumbled: In Apr'23, sales volume of PSO clocked in at 576KT down by 53\% YoY. MS/HSD sales declined by $21 / 52 \%$ YoY due to increase in prices and demand slowdown amid high inflation and high interest rates. Whereas, FO sales fell by $98 \%$ YoY. Sequentially, sales increased by $8 \%$ given $6 / 21 \%$ incline in MS/HSD whereas FO was down 66\%.
- Thus, PSO's overall market share declined by 6.4 ppt YoY to $49 \%$ while MS market share was up by 2.1ppts YoY to 46\% in Apr'23. However, market share for HSD/FO declined by 2/61ppts YoY to 55/8\%.
- APL declined: APL recorded an overall decline of $31 \%$ YoY (up 6\% MoM) during Apr'23 as its petroleum sales were 120KT. Product wise analysis reveals that MS/HSD/FO decreased by $16 / 44 / 33 \%$ YoY. Moreover, APL's market share in MS/HSD/FO was up 1/1/28ppt YoY to stand at 9/8/36\% in Apr'23.
- SHEL also fell: During Apr'23, SHEL's volumes clocked in at 88KT, down by $44 \%$ YoY (down $2 \% \mathrm{MoM}$ ). MS/HSD sales declined by $29 / 61 \%$ YoY. Shell market share of MS/HSD down 1/2ppt YoY to 10/6\%.
- HASCOL sales mark the high jump: HASCOL sales were up by $3.8 x$ YoY (down $18 \%$ MoM) in Apr'23 with volume of 35 k tons given 4.9/2.1x YoY incline in MS/HSD sales. Its market share rose by 2.6 ppts YoY to $3 \%$ in Apr'23.

## Outlook

- We expect a sharp decline in demand for petroleum products during FY23 given protracted economic slowdown, record floods and elevated oil prices amid UkraineRussia war. However, we have an outperform stance on the sector due to expected improvement in cashflows of PSO amid (1) increase in gas and electricity prices, and (2) expected resolution of circular debt given IMF program conditionality.
